■ **Medicare Part D – Prescriber NPI Requirements**

Prescriber Identification Requirements

Effective January 1, 2013, identification of the Prescriber requires a valid and active National Provider Identifier (NPI). Per CMS, all Medicare Part D claims, including controlled substance prescriptions, must be submitted with the Prescriber’s valid and active NPI. It is not acceptable, at any time, to utilize an invalid or inactive NPI which does not represent a Prescriber. For pharmacies, it is imperative that the NPI of the Prescriber is checked and verified instead of simply selecting the first number that appears during the Prescriber search.

Claims Submission

There must be a valid and active individual NPI number submitted with each claim. Otherwise, a claim will reject for Invalid Prescriber. An accurate Submission Clarification Code (NCPDP Field # 420-DK) may be submitted to allow a rejected claim to pay.

- **Claims submitted and reimbursed by CVS Caremark® without a valid and active NPI will result in audit review and chargeback**
- Provider must maintain the DEA number on the original hard copy for all controlled substances prescriptions in accordance with State and Federal laws
- The requirement also applies to foreign Prescribers
- Upon submission of an SCC code, the pharmacy is CONFIRMING the validity of that Prescriber to prescribe the drug
- If calling to request a Prior Authorization, the pharmacy understands that the Prescriber Identifier is considered invalid and will be subject to retrospective audit and possible chargeback

PHARMACY STEPS:

- In the event a claim rejects for prescriber ID, please review the following steps:
- Verify the ID submitted is a Type 1 NPI.
- For controlled drugs, confirm the Prescriber has a valid DEA and is authorized to prescribe that particular class of drugs

Please note: Only certain SCC codes will be allowed to override each reject code, please see below to help determine valid SCC codes for each reject.

| Reject Code | Field # | Code Value | Description |
|-------------|--------------------------------------|------------|--|
| A2,42, 56 | 42Ø-DK Submission Clarification Code | 42 | The Prescriber ID submitted has been validated, is active |
| 43, 44 | 42Ø-DK Submission Clarification Code | 43, 45 | For the Prescriber ID submitted, associated prescriber DEA Renewed, or In Progress, DEA Authorized Prescriptive Rights. For the Prescriber ID submitted, associated DEA is a valid Hospital DEA with Suffix |
| 46 | 42Ø-DK Submission Clarification Code | 46 | For the Prescriber ID submitted and associated prescriber DEA, the DEA has authorized prescriptive rights for this drug DEA Class |
| 619 | 42Ø-DK Submission Clarification Code | 42 | The Prescriber ID submitted has been validated, is active. |

Medicare Part D – Use of Prescription Origin Code

The September 17, 2009, memorandum from Medicare and Medicaid Services (CMS) provided clarification on earlier guidance on the Prescription Origin Code (“Upcoming Drug Data Processing System (DDPS) Changes”).

Providers must use a valid Prescription Origin Code (values 1-4) when submitting **original fills** for Medicare Part D electronic point of sale claims. Effective January 1, 2010, **original fills** claims submitted without one of the values below will be rejected.

Blank and “Ø” (Not Specified) Prescription Origin Code values will no longer be valid values for original fill Medicare Part D claims submitted in standard format with dates of service beginning January 1, 2010.

Effective January 1, 2010 all Medicare Part D claims with a 2010 date of service, will require the Prescription Origin Code and Fill number on all Original Dispensing.

A. Please submit one of the following data elements within Prescription Origin Code (419-DJ):

Blank or Ø – Not Specified (not valid on Medicare Part D Original Fill)

- 1 – Written**
- 2 – Telephone**
- 3 – Electronic**
- 4 – Facsimile**
- 5 – Pharmacy**

B. Please submit one of the following data elements within Fill Number (403-D3):

- Ø – Original dispensing**
- 1 to 99 – Refill Number**

| NCPDP Field # | Segment & Field Name | Required for Original Fill Medicare Part D transactions. |
|---------------|---|---|
| 419-DJ | Claim Segment Prescription Origin Code | 1 – Written 2 – Telephone 3 – Electronic 4 – Facsimile 5 – Pharmacy |
| 403-D3 | Claim Segment Fill Number | Ø – Original dispensing |

Medicare Part D – Vaccine Processing

Dispensing and Administering the Vaccine

If Provider dispenses the vaccine medication and administers the vaccine to the enrollee, submit both drug cost and vaccine administration information on a single claim. The following fields are required in order for the claim to adjudicate and reimburse Provider appropriately for vaccine administration:

| NCPDP Field # | Segment & Field Name | Required Vaccine Administration Information for Processing |
|---------------|---|--|
| 44Ø-E5 | DUR/PPS Segment Professional Service Code Field | MA (Medication Administration) |
| 438-E3 | Pricing Segment Incentive Amount Submitted Field | ≥ \$0.01 (Submit Administration Fee) |

Dispensing the Vaccine Only

If Provider dispenses the vaccine medication only, submit the drug cost electronically according to current claims submission protocol.

Vaccine Administration Only

CVS Caremark® will reject on-line claim submissions for vaccine administration only.

Therefore, if Provider dispenses the vaccine medication and administers the vaccine to the enrollee, submit both elements on a single claim transaction electronically to CVS Caremark®.

Vaccine Drug Coverage

Please rely on the CVS Caremark® on-line system response to determine Medicare Part D vaccine drug coverage for Medicare Part D plans adjudicating through CVS Caremark®. As a reminder—pharmacists are required to be certified and/or trained to administer Medicare Part D vaccines. Please check with individual state boards of pharmacy to determine if pharmacists can administer vaccines in your respective state(s).

| Submitting a Primary Claim | |
|--|--|
| Dispensing and administering vaccine | Professional Service Code Field – MA Incentive Amount Submitted Field – “Submit Administration Fee (≥ \$ Ø.Ø1)” |
| Dispensing vaccine only | Submit drug cost using usual claim submission protocol |
| Submitting U&C Appropriately | |
| U&C to submit when dispensing and administering vaccine medication | Your U&C drug cost + Administration Fee |

Reject Messaging Med B versus Med D Drug Coverage Determinations

In order to comply with CMS guidance encouraging adoption of a new standardized procedure using structured reject "coding" in the message field, CVS Caremark® implemented this standardization, effective July 2006. This guidance and outcome resulted from retail pharmacists needing more specific reject messages in order to assist a Medicare Eligible Person.

This process has been approved by the National Council for Prescription Drug Programs (NCPDP) for two specific messages addressing rejections for (1) drugs excluded from Part D coverage as mandated by the Medicare Modernization Act; and (2) drugs that are covered under Medicare Part B for the designated Medicare beneficiary.

The codes below are returned to your pharmacy system in the free text message fields per the NCPDP standard. The codes cannot be used in the reject code field until a new claim standard is named through CMS guidance. Your software must interpret these codes from the free text message field so that the proper messages are displayed.

| Reject Code | Description |
|-------------|--|
| A5 | Not covered under Part D Law |
| A6 | This medication may be covered under Part B and therefore cannot be covered under the Part D basic benefit for this beneficiary. |

APPENDIX C: MEDICARE PART D LONG-TERM CARE

■ Medicare Part D Long-Term Care Split Billing

The Centers for Medicare and Medicaid Services (CMS) requires that an Long-Term Care claim that is partially paid under **Medicare Part A** and partially paid by **Medicare Part D** should not pay a pharmacy two dispensing fees.

|--------------------------------------|------------|---------------------------------------|--|-------------|
| 42Ø-DK Submission Clarification Code | 19 | Partial Payment under Medicare Part A | Any claim in this situation, partially paid under Medicare Part A then submitted to Medicare Part D, should now be submitted with a Submission Clarification Code of 19. | N/A |

■ Medicare Part D Long-Term Care Automated Override Codes

| 42Ø-DK Submission Clarification Code | 18 | LTC Admission/ Level of Care Change | Newly admitted due to clinical status change. Medications may have: been filled at retail pharmacy prior to admit; been filled prior to transfer and discontinued; not followed beneficiary to new facility due to regulatory and compliance issues and same meds reordered upon re-admit | 31 Days Supply with multiple fills |

Medicare Part D Long-Term Care Appropriate Day Supply

Three fields have been utilized to accommodate Appropriate Day Supply (ADS) dispensing requirements; Patient Residence Code, Pharmacy Service Type and Submission Clarification Codes (SCC). Please use the following information to accurately submit claims.

| Field # | Code Value | Description |
|--------------------------------------|------------|---|
| 42Ø-DK Submission Clarification Code | 21 | LTC dispensing: 14 days or less not applicable – 14 day or less dispensing is N/A due to CMS exclusion and/or manufacturer packaging may not be broken or special dispensing methodology (i.e. vacation supply, leave of absence, ebox, spitter dose). Medication quantities are dispensed as billed, |
| 42Ø-DK Submission Clarification Code | 22 | LTC dispensing: 7 days – Pharmacy dispenses medication in 7 day supplies |

| 42Ø-DK Submission Clarification Code | 33 | LTC dispensing: 7 days or less cycle not otherwise represented |
| 42Ø-DK Submission Clarification Code | 34 | LTC dispensing: 14 days – Pharmacy dispenses medication in 14 day supplies |
| 42Ø-DK Submission Clarification Code | 35 | LTC dispensing: 8-14 day dispensing not listed above – 8-14 day dispensing cycle not otherwise represented |
| 42Ø-DK Submission Clarification Code | 36 | LTC dispensing: dispensed outside of short cycle. Claim was originally submitted to a payer other than Medicare Part D and was subsequently determined to be Part D. |

Rejects may occur for the following reasons:

A Brand oral solid is submitted for greater than a 14 day supply without an appropriate SCC. In this scenario you will receive the following rejects

| Reject Code | Description |
|-------------|-----------------------------------|
| 7X | Plan limitations exceeded |
| 34 | M/I Submission Clarification Code |

Claim is submitted with conflicting SCC short cycles of either 21 or 36 in conjunction with 22-35. In this scenario you will receive the following reject:

| Reject Code | Description |
|-------------|-----------------------------------|
| 34 | M/I Submission Clarification Code |

In order to resolve these rejects please follow these steps:

- Check the quantity submitted. Remember, a Brand oral solid can only be dispensed in 14 days or less unless an appropriate SCC is submitted.
- Use the chart above to determine which SCC applies.
- Check to make sure SCC 21 or 36 was not submitted in conjunction with SCC 22-35. SCC 21 and 36 indicate that short cycle does not apply.

■ **Special Package Indicator**

You may see the following message on your paid claims:

LTC Dispensing Type Does Not Support the Packaging Type.

| Field # | Code Value | Description |

| 429-DT Special Package Indicator | 8 | Manufacturer Unit of Use Package (not unit dose) – Drug is dispensed by pharmacy in original manufacturer's package and relabeled for use. Applicable in Long-Term Care claims only (as defined in Telecommunication Editorial Document). |
